CHILTON + PAINTS!

"You ask my opinion in regard to the CHILTON PAINTS. In my long and varied experience, I have no hesitation in saying that they are superior to any paints I have ever used. Tested beside pure lead and oil, they show a wearing quality far superior, and retain their gloss much longer. They flow freely under the brush, leaving a smooth and glossy surface. Their covering qualities are unsurpassed, and altogether I should recommend them in preference to any other. If first cost should seem to be an objection to their use, you have only to take into consideration that a gallon covers more surface than other paints. If my experience and testimony are worth anything to you, you are at liberty to use them as you like.

Yours truly,
J. F. ESTABROOK,
Foreman Painting Department, Howe Scale Company.

Since that time it has graduated three hundred and seventy-seven in the first course of study and eighty-eight in the second course of study. A large majority of these have been employed since graduation in all grades of schools and have been, with few exceptions, successful as teachers, and by their thorough work and widespread reputation in connection with the graduates from the Randolph and Johnson schools, have vindicated the wisdom of the establishment of normal schools and secured their perpetuation by a practically unanimous vote of the General Assembly at its last session.

RHETORICAL EXERCISES, Weekly; CALISTHENICS, in connection with reading.

**THE SECOND COURSE OF STUDY** embraces one year and a half, or three terms of twenty weeks each.

Graduates must be seventeen years of age. Teachers of experience and persons who have taken a course of study at other schools may complete the First Course in less than two years, and the Second Course in one year.

Graduates from the First Course receive a State License to teach in any public school of the State for a term of *five years*, those from the Second Course receive a license for *ten years*.

A Preparatory Department of two grades is maintained for those not prepared by age and attainments to enter upon the First Course. The instruction is largely by topics. In each recitation the best methods will be sought and illustrated. *The aim of the school is first, to secure the knowledge of the subject; second, to instruct in the best method of imparting that knowledge to others.*

Over eighty free scholarships may be had by members of this school, and for the first time in its history the full number has this year been filled. Appointments may be made from any town in the State. The number of students the past year reaches two hundred and eight, with an average per term of nearly one hundred and sixty, and an average per quarter of over one hundred and thirty. The tuition is *six dollars* per term of *ten weeks*. Board is *three dollars and fifty cents* per week, two to occupy one room. This includes oil for lamp, furnished room, fuel and washing of twelve pieces per week, exclusive of garments requiring extra time and labor in the laundry. Boarders will furnish their napkins, articles for toilet use, bed covering and pillows. One hall is set apart for self-boarders. For this purpose rooms are furnished with wood closets, cupboards, tables, chairs and bedsteads with spring bed. Soft water is supplied in abundance on this hall, and wood is supplied at two dollars per stove cord. Single rooms to one person, *six dollars* per quarter; two persons, *eight dollars*. Double rooms, *twelve dollars* per quarter. A reading table, supplied with papers and magazines, is maintained. Each pupil pays twenty-five cents per term toward its maintenance.

During the past ten years the building has been remodeled at an expense of over *six thousand dollars*, and it is now well furnished throughout for school purposes. The Fall term begins on the third Tuesday in August; the Spring term, on the third Tuesday in February. Year by year the number and average of the pupils have steadily increased, and the school appears to have taken a new lease of life with its entrance upon its second century.

*THE ALLEN REPRINT.*
A PRONOUNCED SUCCESS.

THE ENCYCLOPEDIA BRITANNICA.

Complete in Twenty-five Volumes, together with the American Supplement in Five Volumes. Total, Thirty Volumes, Quarto. Uniform. Good Type. Bound Handsomely and Durably. Marbled Edge. $1.50 per Vol.

This is the famous ALLEN REPRINT of the great ENCYCLOPEDIA BRITANNICA. It is the only complete reprint. It is a full and accurate copy of the latest English (the ninth) edition. The matter it contains is word for word, and page for page exactly the same. It includes *all* of the American articles and *all the marginal notes and sub-indexes. All the eight thousand maps and illustrations, colored maps, everything without omission or addition.* It is as easily read, and looks in every respect about as well as the *One Hundred and Twenty-five Dollar* English edition, and is, in fact, more durably bound than is that costly edition. This famous ALLEN REPRINT is the *only* unmutilated, ungarbled and accurate reprint of the great work on the market.

The American Supplement in five volumes covers American ground which has not been done by the other twenty-five volumes of the BRITANNICA, and is the work of American writers and specialists of highest ability and standing. It also contains forty-nine new maps. Treats also of the very latest development in invention, discovery and scientific progress, and includes biographies f such men as Gladstone, Bismarck, Stanley, Edison, Blaine, etc.
